

YouTube Thumbnail Analysis Guide

Your goal is to capture every important aspect of the thumbnail so that it can be recreated or understood fully based on your description. Follow this structure carefully:

Overall Vibe/Emotion

Describe the overall mood or emotion conveyed by the thumbnail. Is it exciting, mysterious, humorous, dramatic, or something else? What feeling does it evoke?

Central Subject/Focal Point

Identify the main subject or focal point of the thumbnail. This could be a person, object, or action. Describe their appearance, pose, expression, and any standout features (e.g., exaggerated facial expressions, dynamic poses).

Color Palette

List the dominant colors used in the thumbnail. Mention how they contrast with each other and whether they create a vibrant, muted, warm, cool, or high-contrast look.

Text Elements

If there is text, describe it in detail:

- What does the text say?
- What font style is used (e.g., bold, italicized, serif, sans-serif)?
- Where is the text placed within the frame?
- How does the color of the text contrast with the background?

Background/Setting

Describe the background or environment. Is it blurred, solid-colored, patterned, or detailed? Does it include specific props, symbols, or scenery that contribute to the story or theme?

Composition/Layout

Explain how the elements are arranged within the frame. Are they centered, off-center, layered, or overlapping? Is there use of negative space? How do the elements interact with one another visually?

Lighting and Effects

Note any lighting effects, shadows, glows, or filters applied to enhance the thumbnail. Does it have a polished, cinematic, gritty, or cartoonish aesthetic?

Curiosity Gap/Storytelling

Analyze how the thumbnail creates intrigue or curiosity. What questions might it raise for viewers? Does it hint at a story, challenge, or outcome without giving everything away?
